

# 2018 EUROPEAN ZERO EMISSION BUS CONFERENCE

RETURNING FOR THE SECOND EDITION  
ON 27TH - 28TH NOVEMBER 2018  
COLOGNE, GERMANY

## Save the Date: Join us in Cologne for the Zero Emission Bus Conference

Dear Colleagues,

We are pleased to announce that the **Zero Emission Bus Conference** will be returning for a second edition on *27<sup>th</sup> & 28<sup>th</sup> November 2018*.

After a successful [London-based conference in 2016](#), attended by over 250 global stakeholders, this year's discussion will be held in **Cologne**: a city with a proven commitment to decarbonising public transport and a leader in the deployment of zero emission technologies.

*Transport Commissioner Violeta Bulc speaks at the Zero Emission Bus conference 2016.*

*In London, an expert panel discuss technological readiness of ZE buses looking to 2020.*

The Cologne conference will continue efforts to accelerate the roll out of a truly clean transport network in European cities and will again bring together the key stakeholders from industry, policy makers & operators to focus on the leading zero emission technologies for buses: **fuel cell electric** and **battery electric**. Sector experts will discuss the latest advances made by each technology and how to overcome the challenges currently preventing widespread uptake across Europe.

The Zero Emission Bus conference is an opportunity to connect with experts in the industry and an open invitation to regional policy makers and stakeholders to participate in the next wave of global public transport innovation.

**We invite you to save the date.** Further details and a draft agenda will follow shortly.

*For our US colleagues, the North American Zero Emission Bus Conference will take place on 10-11 September 2018 in Los Angeles. Contact: [lauren@cte.tv](mailto:lauren@cte.tv)*
