

COVENTRY HYDROGEN EVENT

FINAL EVENT SWARM PROJECT

17th October 2018 – SAVE THE DATE!

[Register here](#)

The **Coventry Hydrogen Event** will take place on **17th October 2018**.
The event is hosted by Coventry University.

This event will celebrate the achievements of the FCH JU-funded SWARM Project, which finishes this year, putting them in the context of the wider hydrogen transport landscape in the UK and Europe and reflecting on the benefits of implementing the technology as a local solution.

The event will feature presentations on:

SWARM Project

- State of Play for Hydrogen Mobility
- Presentations from Air Liquide, Element Energy, Microcab, Riversimple and others

International and UK context

- Hydrogen and fuel cell technologies in the EU, by the FCH JU
- Hydrogen and fuel cell technologies in the UK

Applications and local projects

- Local Authority perspective
- Integrated energy policy case study

Event location: Engineering & Computing Building, 1 Gulson Rd , Coventry University,
Coventry , CV1 2JH [Map](#)

More information, including the full agenda will be circulated shortly.

We look forward to seeing you in Coventry!

SWARM project overview

The European project SWARM (“Demonstration of Small 4-Wheel fuel cell passenger vehicle Applications in Regional and Municipal transport”) established demonstration fleets of small passenger vehicles that builds on and expands existing hydrogen refuelling infrastructure. Three regions deployed these vehicles: the British Midlands and Wales, the Brussels area and Wallonia, and the Weser-Ems region in North-west Germany. Each of these regions also deployed a new hydrogen refuelling site and gained the infrastructure, public exposure and technological understanding to act as seed locations for future large scale vehicle rollout.

These activities have received funding from the European Union’s Seventh Framework Programme (FP7-2007-2013) through the Fuel Cells and Hydrogen Joint Undertaking under grant agreement number 303485.

This event is organised with the support and as a collaboration between :

Project
